

ageLOC® LumiSpa®

BLEMISH SERUM

Where your skin care gets smarter and your results get even more amazing. ageLOC LumiSpa pairs an intelligent, one-of-a-kind device that uses patented technology with powerful products. The results? You get the skin of your dreams.

MEET AGELOC LUMISPA BLEMISH SERUM

Help knock out visible breakouts and blemishes to experience clearer, smoother, healthier-looking skin. ageLOC Blemish Serum is a multitasking must-have with moxie. This pore-purifying powerhouse is non-irritating and gentle—and it works exclusively with ageLOC LumiSpa and ageLOC LumiSpa Treatment Cleanser—Acne for maximum blemish-fighting benefits.

The secret? It's in the special ingredients expertly combined to get you the best results possible. Want to treat acne and prevent future breakouts? No problem. How about keeping pores clean and clear while maintaining a youthful, vibrant appearance? We've got you covered.

To help banish blemishes, the solution is clear. Use Blemish Serum twice daily so you can glow about your day with gorgeous, selfie-ready skin.

WHY YOU'LL LOVE IT

- Helps clear up acne and blemishes and allows skin to heal.
- Helps prevent the development of new blemishes.
- Penetrates pores to reduce the number of acne blemishes.
- Helps keep pores clean and clear while soothing the skin.
- Helps balance the skin by reducing skin sebum/oils.
- Helps reduce blackheads.
- Features microsilver ingredient to help visibly improve skin and overall complexion.
- Promotes skin's natural exfoliation process.
- Calms and soothes skin.
- Contains ingredients that help combat aging concerns and help promote a more youthful complexion.

- Helps improve appearance of skin.
- Improves overall skin complexion.
- Doesn't dry out skin.
- Helps improve skin smoothness.
- Features Noni Extract, a unique ingredient grown or cultivated through controlled environment agriculture.
- Formulated with Nu Skin's proprietary ageLOC ingredient blend to target the sources of aging and preserve the look of youth.

HOW TO USE IT

Apply a thin layer to entire face after cleansing with your ageLOC LumiSpa device and ageLOC LumiSpa Treatment Cleanser—Acne and toning with a Nu Skin toner. Follow with your favorite moisturizer. Use twice daily, morning and night.

WHAT POWERS IT

- **2% Salicylic Acid**—a beta-hydroxy acid that helps chemically exfoliate while being oil soluble for penetrating the pores. At 2%, this ingredient helps treat existing acne and prevents future breakouts.
- **Silver**—a well-known skincare ingredient that helps promote a healthy-looking complexion and also gives this product its silver/gray appearance.
- **Azelaic Acid**—promotes oil control and helps to clarify the skin.
- **Noni Extract**—a CEA-sourced ingredient that helps reduce sebum production and keep the skin calm.
- **ageLOC Blend**—Nu Skin's exclusive technology that targets the sources of aging to help maintain a youthful, vibrant appearance.

LEARN MORE ABOUT IT

What makes ageLOC LumiSpa Blemish Serum so effective?

The magic of Blemish Serum lies in its ingredients. And we've made sure to include the right balance of powerful ingredients in the most effective amounts possible. These ingredients include 2% Salicylic Acid, which helps treat existing acne while also preventing future breakouts. Silver, Azelaic Acid, and Noni Extract help to improve the overall appearance of skin, soothe skin, and help keep pores clean and clear. And our proprietary ageLOC Blend helps target the sources of aging to help maintain a youthful, vibrant appearance. But the real blemish-fighting power comes when you use Blemish Serum twice daily, after your ageLOC LumiSpa Acne System treatment.

Do I have to use Blemish Serum with ageLOC LumiSpa, or can I use Blemish Serum on its own?

You can use Blemish Serum on its own as the treatment step of your skincare regimen for great results. But for maximum blemish-fighting power, you should cleanse and treat your face with ageLOC LumiSpa and Treatment Cleanser-Acne and then follow with Blemish Serum.

Can I use Blemish Serum on other parts of my body besides my face (for instance, my upper back)?

While Blemish Serum was specifically formulated for use on the face, you can apply it to other areas of the body to help treat blemishes.

Will Blemish Serum irritate my skin?

Blemish Serum is formulated with skin-soothing ingredients that won't clog your pores. However, we always recommend testing a new product on a small portion of your skin before using it on a larger area and discontinuing use if skin irritation occurs.

How does Salicylic Acid help treat blemishes?

Salicylic Acid is a beta-hydroxy acid. It is oil-soluble, which means it can only be dissolved in oil. This means it can cut through the natural oils on your skin to act as a chemical exfoliator to help keep pores clear. But that's not all—it can also help prevent future breakouts.

What makes the product look gray?

The ingredient that gives Blemish Serum its gray hue is the Silver. This special ingredient helps visibly improve skin appearance and overall complexion.

What is Controlled Environment Agriculture (CEA)?

Controlled Environmental Agriculture is a technology-based approach to growing and cultivating ingredients that are sustainable. Ingredients grown or cultivated using CEA are developed within a regulated environment using technologies that help to ensure optimal conditions from seed to solution.

How does Blemish Serum support Nu Skin's commitment to become more sustainable?

Blemish Serum features a recycle-ready bottle that's made with 25% recycled material. Please check your local capabilities and recycle where possible. By purchasing Blemish Serum, you're joining us in taking an active, engaged stride to ensure the future is bright for both the planet and each of us. Please visit www.nuskin.com/sustainability for more information and details on how to recycle.
