

NUTRICENTIALS® SYSTEM

MEET THE NUTRICENTIALS SYSTEM

Your skin has a mind of its own. But now you can make it resilient to its mood swings. The Nutricentials system helps your skin adapt to environmental stressors like late nights, pollution, and UV rays—for better, balanced skin every single day. **Nutricentials. Great skin. Great day.**

WHY YOU'LL LOVE IT

- Bioadaptive Botanical Complex helps your skin adapt to its changing and unique environment so it can recover from—and gain resiliency to—environmental stressors.
- Adaptive moisture hydrates more or less, depending on your skin's immediate needs, whatever the day, place, or season.
- Protects and balances skin during the day while optimizing its natural repair processes overnight to promote healthier, more resilient skin.
- Gives your skin the strength to bounce back from life's daily stressors, boosting skin's resiliency to free radicals, pollution, stress, lack of sleep, etc. so you always look your best.
- Calms tired, overexerted skin and revitalizes a dull appearance by building a glowing, radiant complexion for skin that looks and feels stronger and healthier than ever.
- Great for all skin types.
- Paraben-free, mineral oil-free, phthalate-free.

WHAT POWERS IT

The Nutricentials system features a unique complex of bioadaptive botanicals from plants with adaptive properties that help them thrive in extreme climates. These botanicals use that same power to help your skin bounce back from stressors. Ingredients include:

- **Rhodiola Rosea (Arctic Root)**—a wild Arctic plant that grows on sea cliffs and high mountains and is known for its ability to strengthen the body's response to stress.
- **Maral Root**—a perennial herb that grows in sub-alpine areas and has been long harvested for its numerous health benefits.
- **Siberian Ginseng**—a sturdy herb that can adapt to a wide range of soils, withstand pollution, and is known for its potential medicinal qualities.
- **Chaga Mushroom**—a tree mushroom that can live for more than 80 years in frigid climates thanks to its incredible antioxidant properties.
- **Resurrection Plant**—a plant that can survive months or even years without water, only to burst back to stunning life as soon as it receives water.
- **HydraFlex Blend**—adapts to your skin's hydration needs in changing environments throughout your day.

HOW TO USE IT

LEARN MORE ABOUT IT

Why are these products called "Nutricentials"?

Nutricentials products provide powerful nutrients that are essential to helping your skin recover and adapt to life's many stressors. These nutrients help give your skin a beautiful, healthy glow. We consider these ingredients "nutrient essentials"—or "Nutricentials."

NUTRICENTIALS® SYSTEM

What are bioadaptive botanicals?

Bioadaptive botanicals are plants that thrive in extreme climates thanks to their adaptive properties. These special properties increase the plant's resilience and help them—and your skin—recover from all kinds of damage and stress.

If Nutricentials adapts according to your skin's unique needs, then why are there different products for different skin types?

Different skin types have different innate needs. For example, people with oily skin often prefer a lightweight moisturizer and a stronger cleanser. Those with dry skin often enjoy a rich cream and more gentle, creamier cleanser. We created products specifically to meet your preferences and then infused them with bioadaptive botanical extracts to help your skin adapt and be its best in any environment.
