LEARN MORE ABOUT IT

Are baobab trees cut down to make Epoch® Baobab Body Butter?

No. All Epoch products are made with sustainably sourced botanical ingredients. Baobab Body Butter features baobab fruit pulp extract, so the tree is unharmed.

What makes baobab an ethnobotanical?

Ethnobotanicals are plants or herbs that are tied to a region and its people. Baobab falls into this group because of its unique place in African myths, legends, and ways of life. The trees are used for food, water, and even homes. Likewise, the fruit has been traditionally used to treat a variety of medical concerns. This versatile plant holds an important role in many African cultures.

Can I use Baobab Body Butter on my face?

You shouldn't use Epoch Baobab Body Butter on your face—this product was specifically designed for your body. For a rich facial moisturizer, try Nutricentials® Moisture Restore Intense Moisturizer.
