

 age**LOC**<sup>®</sup>  
YOUTH

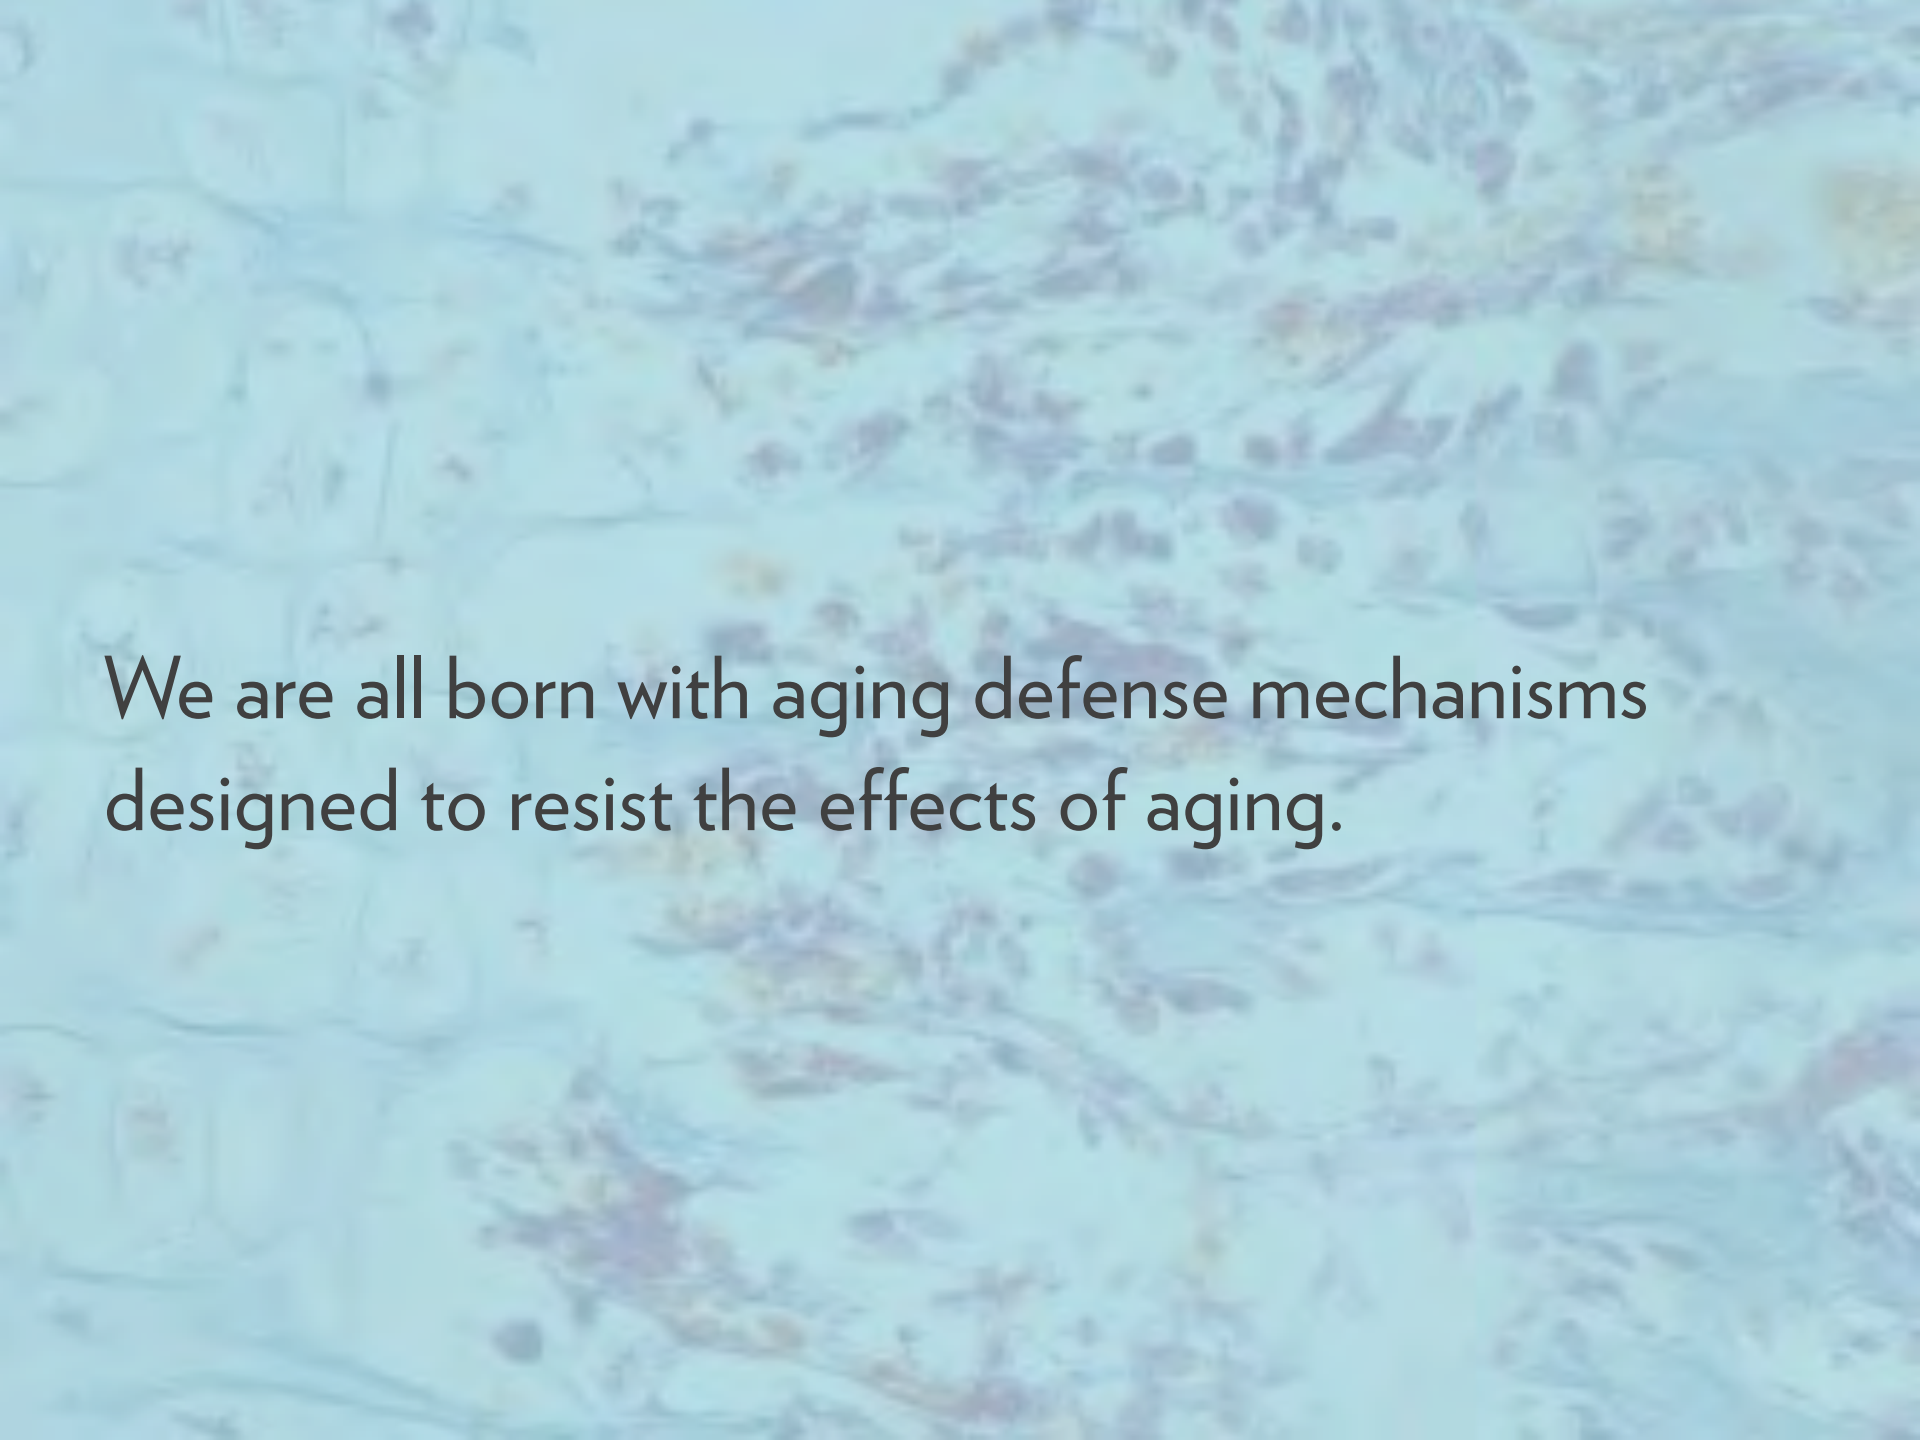

The human body is a miracle. It naturally learns, evolves, and repairs itself.

It is designed to **live** young.

A microscopic view of tissue, likely stained with hematoxylin and eosin (H&E), showing various cellular structures and fibers. The image is overlaid with a semi-transparent blue filter. The text is centered on the left side of the image.

We are all born with aging defense mechanisms designed to resist the effects of aging.

But over time, external and internal influences can disrupt natural youthful activity and accelerate aging effects.

The key is to give your body what it needs so it can continue to do what it is designed to do—live young.

A background image showing a microscopic view of skin cells, likely keratinocytes, with visible nuclei and cytoplasm, rendered in shades of light blue and white. The cells are scattered across the frame, some in focus and others blurred, creating a sense of depth and biological activity.

Through Nu Skin's unique understanding of how gene expression affects our aging defense mechanisms, we are able to create products that target the sources of aging.

INTRODUCING

 ageLOC®  
YOUTH

A revolutionary anti-aging supplement that helps revitalize our aging defense mechanisms.\*

ageLOC Youth is designed to promote your youth span—the years you can enjoy life being more active, energetic, and healthy.\*

\*These statements have not been evaluated by the Food and Drug Administration.  
This product is not intended to diagnose, treat, cure, or prevent any disease.

ageLOC Youth promotes the expression of key groups of genes and delivers enhanced nutritional benefits—providing the body with powerful, protective anti-aging support to help us age youthfully.\*

\*These statements have not been evaluated by the Food and Drug Administration.  
This product is not intended to diagnose, treat, cure, or prevent any disease.

The power is in ageLOC Youth's innovative ingredient blend that provides nutrients not readily available even from a healthy diet.

We carefully selected ingredients for their unique health benefits and ability to positively impact gene expression.

The result: an innovative formula that strengthens and supports our aging defense mechanisms.\*
