## LEARN MORE ABOUT IT

### What are Adaptogens?

Adaptogens are plants that thrive in extreme climates thanks to their adaptive properties. These special properties help your skin adapt to its changing and unique environment so it can recover from—and gain resiliency to—environmental stressors.

### Where can I get answers to questions about my ageLOC® LumiSpa® iO device?

Please consult the ageLOC LumiSpa iO User's Manual for information about the ageLOC LumiSpa iO system.

### How does ageLOC LumiSpa iO work with Restore Treatment Cleanser?

We specifically developed the Treatment Cleansers to use with ageLOC LumiSpa iO. They're designed to work synergistically with the micropulse oscillation of the heads to optimize the distribution of anti-aging ingredients onto the skin while cleansing and exfoliating to promote healthy, youthful-looking skin.

# RESTORE LINE

## **Can I use other treatment products with the Restore Line?**

Yes. The Restore Line is a complete skincare routine, but you can still address individual needs by adding additional treatment products, such as Tru Face Line Corrector, ageLOC Tru Face Essence Ultra, ageLOC® LumiSpa® IdealEyes®, Nu Skin® masks, scrubs, etc. for additional benefits.

## **How long will my Restore Line last?**

Restore products are optimized for 30-day use.

## **How do I know which ageLOC LumiSpa iO treatment head is right for me?**

While each treatment head removes impurities and purifies skin, the different treatment heads are designed to address unique needs. The Gentle treatment head is our gentlest choice and is great for those with sensitive and acne-prone skin. The Normal treatment head is the standard choice and is designed for most skin types. And the Firm treatment head is for those who want the most aggressive experience but is not recommended for those with sensitive or acne-prone skin. You can use different heads for different experiences each day. ageLOC LumiSpa iO Accent is designed specifically for the eye area and for use with ageLOC LumiSpa IdealEyes.

## **How does the Restore Line support Nu Skin's commitment to become more sustainable?**

As responsible stewards of our planet, we have proudly designed our tubes to be made with 37–39% recycled material, and our bottle with 50% recycled material. The Serum pump is made with 19% recycled material and made with a single material, which makes it easier to recycle where Polypropylene (PP) recycling is available.

Plus, Nu Skin is working to sustainably source its palm-oil-derived ingredients. Please check your local capabilities and recycle all bottles, cartons, and jars where possible. By purchasing the Restore Line, you're joining us in taking an active, engaged stride to ensure the future is bright for both the planet and each of us.

Please visit [www.nuskin.com/sustainability](http://www.nuskin.com/sustainability) for more information and details on how to recycle.

## **How is bakuchiol a gentle alternative to retinol?**

Bakuchiol is a plant-based ingredient that offers many of the same great benefits of traditional retinol, such as visibly smoothing skin and minimizing the appearance of fine lines and wrinkles. Because it is gentler, bakuchiol is considered to be less irritating than retinol.

## **Can I use bakuchiol if I am sensitive to retinols?**

Bakuchiol is a great alternative for those who are sensitive to retinols, but unexpected skin responses can still happen. We recommend doing a 24-hour patch test in a small, unnoticeable area before you introduce the Restore Serum to your routine.

## **The Restore Toner makes my skin tingle a bit. Is this normal?**

Yes. With the unique skin preparation of the Restore Toner, many individuals feel a slight tingling sensation on their skin.

## **Who should use the Restore Line?**

The Restore Line contains products curated specifically for those who want to target fine lines, wrinkles, and skin firmness and benefit from formulas that help provide a smooth, youthful appearance and lifted look.
