## LEARN MORE ABOUT IT

Is ageLOC Transformation a complete regimen?

Yes. ageLOC Transformation is a complete system consisting of a cleanse and tone combination product, treatment product, day lotion, and night cream. This system does target a full array of anti-aging concerns, but individuals benefit from adding additional treatment products, like ageLOC Tru Face Essence Ultra, for a more comprehensive approach to their skin care needs.

Why isn't there a separate toner in this system?

Unlike many other skin care systems, ageLOC Transformation combines cleansing and toning in a single product. ageLOC Gentle Cleanse & Tone gently cleanses, purifies, and hydrates skin, preparing it to receive advanced anti-aging ingredients. The dual-action formula works gently at skin's own natural healthy pH, combining cleansing and toning into a single step, while leaving skin looking refreshed and youthful.

Can I use other treatment products from core systems with ageLOC Transformation?

Yes. ageLOC Transformation is a complete anti-aging system, but you can still address individual needs by adding additional treatment products such as Tru Face Line Corrector, ageLOC Tru Face Essence Ultra, Nu Skin 180°<sup>oo</sup> AHA Facial Peel, masks, scrubs, etc. for additional benefits.

Can I add an additional toner to ageLOC Transformation?

If you desire, you may add a toner to the ageLOC Transformation System after using ageLOC Gentle Cleanse & Tone, although one is not needed. The only benefit of doing so would be the addition of key ingredients from that product, such as skin lightening from Tri-Phasic White® Toner or reduced shine and oiliness from pH Balance Mattefying Toner.
