### HOW IS AGELOC® TRU FACE® ESSENCE ULTRA DIFFERENT FROM TRU FACE® ESSENCE ULTRA?

ageLOC Tru Face Essence Ultra still features Ethocyn®, an anti-aging ingredient that has been clinically proven to improve the key component of firm skin. Now it is also formulated with our revolutionary anti-aging science. Now you get all the benefits of Ethocyn plus the benefits of ageLOC.

### HOW DOES AGELOC® TRU FACE® ESSENCE ULTRA WORK?

Nu Skin's firming specialist now employs revolutionary anti-aging science to target the sources of aging that lead to loss of firmness. Formulated with the power of Ethocyn®, and a protective antioxidant network to contour the skin and helps to protect the skin from oxidizing free radicals.

### WHAT IS THE PURPOSE OF THE ANTIOXIDANT NETWORK IN AGELOC® TRU FACE® ESSENCE ULTRA?

This network consists of a powerful combination of antioxidants, including Tegreen 97®, coenzyme Q10 (CoQ10), vitamin E, colorless carotenoids, and a special lipid soluble form of vitamin C. Natural lipophilic antioxidants act synergistically to protect sebum lipids. For example, CoQ10 regenerates vitamin E after free radical scavenging, acting as an antioxidant defense system. By providing a network of antioxidants, the protective function against free radicals is not only enhanced, but the key ingredients are also more available to perform other functions that can benefit the skin.
