## TESTIMONIALS

“I’ve used many shampoos and conditioners on the market, and although they can give a certain softness and silky feeling to hair, they were giving only false feeling, because of too much oil in the product formulations. This oil created a lot of flakes on my scalp. I was very surprised when I used Epoch Ava puhi moni Conditioner. Not only did it not produce flakes on my scalp, it gave me by far the smoothest and the softest hair I could imagine! It was so soft, I felt addicted to combing my hair! The best thing was that while other conditioners only gave my hair a soft texture when it was moist, Epoch Ava puhi moni Conditioner made my hair even softer when it was dry—even until the evening when it’s still as soft as when I first stepped out of the shower!”

## FYI

Ava puhi is a natural ingredient known for its conditioning, smoothing, and shine-enhancing benefits. For generations, Polynesians have squeezed nectar from the ava puhi bulb-like flower directly onto their hair to wash and condition it. Epoch® Ava puhi shampoos and conditioners are called Ava puhi moni® because “ava puhi moni” means “true ava puhi” (the word “moni” in Hawaiian means “true”). Epoch® is the only line of products that uses the correct part of the plant as used by the indigenous people of Hawaii. To grow and cultivate the ava puhi plant for use in Epoch® hair care products, Nu Skin has established a relationship with an independent agricultural source in the islands of Polynesia.
