

BRISK

Boost your senses with Epoch Brisk essential oil blend and catch the wonderful scents of a pine and eucalyptus forest after a cleansing rain. The potent aroma of Epoch Brisk comes from eucalyptol, a naturally forming plant chemical. Eucalyptol has a fresh camphor-like smell, which gives this essential oil blend a strong, penetrating, and pleasant aroma.

BURST

Enjoy the zest of Epoch Burst—an energetic blend of citrus and mint essential oils. Pour a drop of Epoch Burst into an Epoch diffuser and breathe in the aroma. Try to pick up the subtle hints of fresh grapefruit, tangerine, lime, and the exotic Mediterranean bergamot fruit. Through the citrus, notes of spearmint help to carry that energetic feel of Epoch Burst straight to your senses.

NU SKIN FORCE FOR GOOD FOUNDATION

Nu Skin Enterprises' spirit of long-term social responsibility led to the creation of the Nu Skin Force for Good Foundation: a nonprofit organization whose mission is to improve the lives of children by offering hope for a life free from disease, illiteracy, and poverty.

Nu Skin donates \$0.25 from every Epoch product sale to the Nu Skin Force for Good Foundation. The following are just three examples of the Force for Good Foundation's dedication to fostering long-lasting improvement around the world.

CHARITYVISION

The Nu Skin Force for Good Foundation has partnered with CharityVision International Foundation to provide vision care and eye glasses to impoverished school children in Central and South America.

Nearly 70 percent of children dropping out of school in developing countries have an unmet visual health need. Whether it's a simple pair of glasses or an involved surgery, the Nu Skin Force for Good Foundation and CharityVision are committed to answering the call for a brighter future for these children.

SEEDS OF HOPE

The Nu Skin Force for Good Foundation also donates to the Malawi Seeds of Hope project, providing funds to purchase fruit trees in Malawi, Africa. The indigenous trees bearing guavas, pawpaw and avocado fruits are distributed to various villages and schools. The indigenous fruit trees are changing the lives of vulnerable children by providing nourishment and a source of income for their families.

EPIDERMOLYSIS BULLOSA (EB) MEDICAL RESEARCH FOUNDATION

EB is a genetically transmitted skin disorder that primarily affects children and causes the development of blisters or open sores on as much as 75 percent of the body. Dedicated to helping find a cure for EB, Nu Skin has donated to the EB Medical Research Foundation since 1996.

ESSENTIAL OILS

LAVENDER

The natural, floral aroma of Epoch Lavender essential oil provides a sense of tranquility and peace. Enjoy a relaxing end to even the busiest day with the calming benefits of Epoch Lavender. Put a few drops in a warm bath or rub this oil on your pillow at night to calm and soothe.

PEPPERMINT

Dive into the refreshing, sharp aroma of Epoch Peppermint essential oil at home or on the go. Apply Epoch Peppermint on your skin with Epoch Topical Blending Oil or diffuse in the air for a wonderful, exhilarating sensation that will motivate you throughout your day.

ASSURE

Epoch Assure is a potent blend of cinnamon, clove, and other pure essential oils that help the air and surfaces feel exceptionally clean. It is an ideal essential oil blend for neutralizing odors or elevating your surroundings. Cinnamon and clove are known for their powerful aromas and this blend delivers an engaging combination of enjoyable scents.

EPOCH MINI MIST DIFFUSER

The Epoch Mini Mist Diffuser is the perfect way to share and enjoy Epoch Essential Oils while on the go. The Mini Mist's ultrasonic technology vibrates to vaporize water and essential oil into a fine mist.

6S QUALITY PURE GRADE ESSENTIAL OILS

The key to consistent quality and purity of our Epoch Essential Oils is our 6S Quality Process. This process involves a set of rigorous, highly integrated activities and includes multiple layers of scientific testing and attention to detail. It requires consistent collaboration and a unified commitment to quality. We maintain the highest levels of purity, efficacy, and safety controls through each and every stage of our development and manufacturing processes to ensure unsurpassed results that meet only the highest standards.
