

FACIAL SCRUB

PRODUCT OVERVIEW

Facial Scrub is a high-power exfoliator that uses ground walnut shell powder to smooth the skin's surface.

CONCEPT

High-power exfoliation for ruddy complexions. With ground walnut shell powder, Facial Scrub helps smooth and soften skin that has become coarse from past sun damage. Men especially appreciate the invigorating feel of this refreshing scrub. Use one or two times per week for a more radiant complexion.

TARGET AUDIENCE

Men or women ages 20+ with ruddy complexions.

PRODUCT CLAIMS

- Utilizes finely granulated walnut shells to hasten the exfoliation of useless, dead cells and remove surface impurities from the skin.
- Exfoliates, making your skin feel soft and smooth.
- Includes the moisturizing ingredients aloe vera, vitamin E (tocopheryl acetate), and vitamin A (retinyl palmitate). Safety-allergy-dermatologist tested.

KEY INGREDIENTS

- Ground walnut shell powder—helps smooth and soften skin with high-powder exfoliation.
- Aloe Vera—soothes and conditions skin.
- Vitamin A (retinyl palmitate)—an antioxidant and conditioner that encourages skin elasticity and smoothness.
- Vitamin E (tocopheryl acetate)—an excellent skin moisturizer and conditioner.

USAGE/APPLICATION

Dampen face. With a gentle rotating motion, apply to face and neck for about 30 seconds. Thoroughly rinse with warm water. Follow with In Balance pH Balance Toner, Celltrex Always Right Recovery Fluid, and the Nu Skin treatment and moisturizer of your choice.

FYI

- When your skin looks dull or lifeless, it's a sign that you need to exfoliate on a regular basis. Exfoliation speeds up the process of the constant shedding of the stratum corneum—the top layer of the epidermis—making your skin look and feel more smooth and radiant.
- If you exfoliate too often, the “glow” you used to get will disappear, and you'll feel you have to exfoliate more to attain this. If your skin reaches this point, it's best to let it rest for a few weeks, then resume a less vigorous regimen. Twice a week is ample for most complexions.

COMPLEMENTARY PRODUCTS

- Enhancer Skin Conditioning Gel—with conditioning panthenol and soothing aloe vera, Enhancer soothes the skin and prevents moisture loss.

FREQUENTLY ASKED QUESTIONS

Is there anyone who should not use Facial Scrub?

People with sensitive skin, very dark skin color, moderate to severe acne, or who are using the entire Nu Skin 180® System should not use Facial Scrub.

FACIAL SCRUB

Does Facial Scrub use jagged edged particles to exfoliate the skin?

Facial Scrub contains walnut shells that are ground into a fine powder that does not have jagged edges. If used correctly, walnut shell powder will not damage the skin.

Which skin types should use Facial Scrub?

Facial Scrub is great for any skin type.

Can I use Facial Scrub daily?

It is recommended to use Facial Scrub one to two times a week.
