FACIAL TECHNIQUES

HOW TO USE YOUR FACIAL SPA

With all of these movements, gently come back to the starting position and repeat several times.

① EYE AREA: Following the bone structure around your eye, start under the eyes and move up around the eye, holding firmly at the top of the eyebrow (do not use close to eyelid or eyes).

② SMILE LINE: Start just under the nose, move to the smile line and hold. Then move straight upward and outward to the temple and hold.

③ CHIN: Start in the middle of the chin, below your lips, move up to the jowl line and hold. Then continue in an upward and outward motion to the edge of your face just in front of the ear.

④ FOREHEAD: Start at the bridge of your nose, move the instrument up to your “thinker lines” and hold. Then continue on to your hair line. Move across the forehead using these same movements.

⑤ NOSE/CHEEK: Hold the instrument at a 90-degree angle on the side of your nose and then move to the middle of your cheekbone and back.
