

NUTRICENTIALS® INTENSIVE EYE COMPLEX

Your skin has a mind of its own. But now you can make it resilient to its mood swings. The Nutricentials system helps your skin adapt to environmental stressors like late nights, pollution, and UV rays—for better, balanced skin every single day. **Nutricentials. Great skin. Great day.**

MEET INTENSIVE EYE COMPLEX

If you're busy, overworked, tired, and stressed—and look it—you have your eyes to thank. But now there *is* a way to hide those tired eyes. This luxurious emulsion is your secret to gorgeous, wide-awake eyes. The special formula uses ceramides in your skin to boost skin's moisture barrier for a brighter undereye. At the same time, it helps form a light, protective barrier to stop pollution, free radicals, and stress damage in their tracks. Dab it under your eyes twice daily for smoother, more radiant, and dewy skin.

WHY YOU'LL LOVE IT

- Bioadaptive botanical blend helps your skin adapt to your unique needs and environment so it can bounce back from life's daily stressors.
- Works with the ceramides in your skin to create a more robust moisture barrier and a brighter undereye.
- Binds moisture to skin to keep it hydrated throughout the day.
- Helps protect skin from the visible effects of pollution, free radicals, and stress.
- Leaves skin feeling soft, smooth, refreshed, and renewed.
- Fast-absorbing formula dries quickly for a non-greasy after feel.
- Paraben-free, mineral oil-free, phthalate-free, and fragrance-free.

WHAT POWERS IT

- Bioadaptive Botanical Blend (Rhodiola, Maral Root, Siberian Ginseng, Chaga Mushroom, and Resurrection Plant)—a blend of botanical extracts from plants that thrive

in extreme climates and can help your skin bounce back from stressors.

- **Coastal Marine Fennel**—fights free radicals and boosts skin ceramides to smooth skin and increase radiance.
- **Brown Seaweed**—boosts and helps skin retain moisture using powerful Omegas 3, 6, and 9.
- **Polysaccharide**—creates a flexible film that binds water to skin.
- **Shea butter, Aloe, and Squalane**—moisturize skin for a dewy appearance.

HOW TO USE IT

After cleansing and toning, gently dab a small amount onto the skin under both eyes. Use morning and night.

- pH Balance Toner
- pH Balance Mattefying Toner

LEARN MORE ABOUT IT

What are bioadaptive botanicals?

Bioadaptive botanicals are plants that thrive in extreme climates thanks to their adaptive properties. These special properties increase the plant's resilience and help them—and your skin—recover from all kinds of damage and stress.

NUTRICENTIALS® INTENSIVE EYE COMPLEX

Is the skin around the eyes really different from the skin on the rest of my face?

Yes! The skin around the eyes is actually the thinnest and most sensitive on the face, so it requires special attention and needs to be treated much more gently.

Which finger is best to use when applying Intensive Eye Complex?

The skin around your eye is extremely soft and delicate, so you need to be extra careful not to damage it. Your ring finger is the softest and most sensitive of any finger, so it's the best choice when applying product to this delicate area.

Which skin types should use Intensive Eye Complex?

Intensive Eye Complex is great for all skin types and can add moisture and protection to anyone's delicate eye area.

Why is it important to moisturize the eye area?

The skin around the eyes is the first area to show the telltale signs of aging and stress. Moisturization of the eye area can protect the delicate moisture barrier as well as minimize the appearance of fine lines and wrinkles.
