FAQ

Is Focus Chews safe for children?

Focus Chews is safe for children ages 9 and up.

Can Focus Chews be taken with Marine Omega and/or Optimum Omega?

Yes, Focus Chews is meant to supplement your daily intake of important brain-healthy vitamins and nutrients.

Is Focus Chews safe to take with other Pharmanex® supplements?

Absolutely, but we recommend consulting your doctor before taking any supplements if you are pregnant or lactating, using a prescription medication, or have any other conditions that may be affected by a supplement.

Do I need to take Focus Chews with food?

Focus Chews can be taken with or without food as a convenient source of omega-3 fatty acids, choline, and other nutrients.
