

NU SKIN 180°[®] AHA FACIAL PEEL AND NEUTRALIZER

Your skin is telling you it's time to make a change. Decide today to look younger with the Nu Skin 180° Anti-Aging Skin Therapy System. This four-step skin care system is clinically proven to refine texture, even skin tone, and diminish the appearance of fine lines and wrinkles for an overall more youthful appearance.

MEET NU SKIN 180° AHA FACIAL PEEL AND NEUTRALIZER

A dramatic way to turn your complexion around. Wipe away dull, aged skin in minutes with Nu Skin 180° AHA Facial Peel and Neutralizer and discover a smoother, younger look. Utilizing a 10 percent lactic acid solution, this scientifically proven formula sweeps away the appearance of aging and sun damage without the recovery time required by aggressive clinical peels. Effective alone or as part of your Nu Skin 180° System, the AHAs in this powerful facial peel help promote youthful skin cell turnover and reduce the look of lines and wrinkles. The benefits of Nu Skin 180° AHA Facial Peel will get your skin noticed.

WHY YOU'LL LOVE IT

- Promotes youthful skin cell turnover.
- AHAs help diminish the look of visible lines and wrinkles.
- Chemically exfoliates to lighten the appearance of surface discoloration.
- Smooths skin texture.

WHAT POWERS IT

AHA FACIAL PEEL (STEP 1):

- **Lactic Acid**—this aggressive alphanhydroxy acid promotes youthful skin cell turnover and breaks apart dead cell buildup. Chemical exfoliation works to diminish the appearance of lines and wrinkles, improve texture, and reduce the appearance of pores.

AHA FACIAL PEEL NEUTRALIZER (STEP 2):

- **Avena Sativa (Oat) Kernel Extract**—rich in the antioxidant compound avenanthramides, this extract exhibits exceptional calming properties that soothe the skin and reduce topical sensitivity.

HOW TO USE IT

Use in place of the 180° Cell Renewal Fluid three times weekly after cleansing and toning. Gently swipe one AHA Facial Peel pad over face and neck, avoiding the eye area. Allow solution to remain on the face for at least 10 minutes, then gently swipe one AHA Facial Peel Neutralizer pad over face. Follow with your Nu Skin daily moisturizer.

PLEASE NOTE: a mild stinging sensation may occur with application, which is normal. However, if irritation persists, rinse your face with warm water.

MORNING REGIMEN

- STEP 1:** Face Wash
STEP 2: Skin Mist
STEP 3: Cell Renewal Fluid

STEP 4: UV Defense Hydrator

EVENING REGIMEN

- STEP 1:** Face Wash
STEP 2: Skin Mist
STEP 3: Cell Renewal Fluid or AHA Facial Peel and Neutralizer (3x weekly)
STEP 4: Night Complex

SUNBURN ALERT: This product contains an alpha hydroxy acid (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen, wear protective clothing, and limit sun exposure while using this product and for a week afterwards.

FYI

The hydroxy acid concentration of a product does not necessarily reflect optimum efficacy. The true measure of hydroxy acid efficacy is its free acid content. Published scientific literature demonstrates that most hydroxy acid benefits are directly related to high free acid levels, and the free acid content is dramatically affected by the pH level of the product—the lower the pH, the higher the free

NU SKIN 180°[®] AHA FACIAL PEEL AND NEUTRALIZER

acid content. For example, a product containing 10 percent hydroxy acid at a pH of 5.5 has less than 1 percent free acid. Reducing the pH level to 4.5 increases the free acid to 3 percent. Nu Skin 180° AHA Facial Peel and Neutralizer contains 10 percent hydroxy acid at a pH of 3.5, delivering a free acid level of 8 percent.

- Tru Face Line Corrector

LEARN MORE ABOUT IT

Can I use Nu Skin 180° AHA Facial Peel and Neutralizer with other systems or products?

AHA Facial Peel and Neutralizer can be used with any system or product except an exfoliating formula like ageLOC Future Serum, which may cause sensitivity in some skin types. Please note: some individuals have experienced irritation on the neck. If this occurs, rinse the skin after AHA Facial Peel Neutralizer has dried and use only once per week.

Do I have to use Nu Skin 180° AHA Facial Peel with the Neutralizer?

Nu Skin 180° AHA Facial Peel and Neutralizer were formulated to be used together. Not using both products may result in unnecessary irritation or diminish product benefits.

Why does Nu Skin 180° AHA Facial Peel and Neutralizer have a “Sunburn Alert”?

The FDA recommends this general warning be provided on any product that contains alpha hydroxy acids because this efficacious anti-aging ingredient is also known to increase skin sensitivity to UV radiation. Thus, Nu Skin 180° AHA Facial Peel should be used in conjunction with Nu Skin 180° UV Block Hydrator SPF 18 or a similar Nu Skin moisturizer with broad spectrum sun protection.

WHAT'S IN IT

AHA FACIAL PEEL (STEP 1)

Water (Aqua), Lactic Acid, Betaine, Pentylene Glycol, Arginine, Aloe Barbadensis Leaf Juice, Panthenol, Sodium Hydroxide, Tetrasodium EDTA, Benzoic Acid.
