

# NU SKIN® TRI-PHASIC WHITE® DAY MILK LOTION SPF 15

Nu Skin Tri-Phasic White is a comprehensive skin brightening system containing five products that target all three critical phases of the discoloration process.

**PHASE 1:** Protecting from initial factors that cause discoloration.

**PHASE 2:** Targeting a key component in the discoloration process.

**PHASE 3:** Reducing the appearance of discoloration.

Nu Skin Tri-Phasic White will help you achieve even-toned, glowing skin for a brighter, more radiant you.

## MEET TRI-PHASIC WHITE DAY MILK LOTION

Maintain a luminous complexion. Tri-Phasic White Day Milk Lotion moisturizes while helping reduce the appearance of skin discoloration. The advanced formula features hexapeptide-2, which works to reduce discoloration, and broad spectrum UVA/UVB protection to effectively protect the skin from ultraviolet rays that can lead to an uneven skin tone. This lotion helps your beauty clearly shine through.

## WHY YOU'LL LOVE IT

Helping promote a bright complexion, broad spectrum UVA and UVB sunscreens help prevent ultraviolet rays from penetrating the skin—the most common cause of an uneven skin tone.

## WHAT POWERS IT

- **Hexapeptide-2**—protects skin from the potential discoloration initiators.
- **Broad Spectrum UVA and UVB sunscreen agents (SPF 15)**—help absorb and reflect the high-energy rays that initiate skin-damaging free radical chain reactions. Because UV rays are one of the most common causes of skin discoloration, it is important to intercept them before they damage the skin and trigger the activation of discoloration.

## HOW TO USE IT

Apply liberally to face and neck. Reapply as needed throughout the day.

## MORNING REGIMEN

- Tri-Phasic White® Cleanser
- Tri-Phasic White® Toner
- Tri-Phasic White® Essence
- Tri-Phasic White® Day Milk Lotion

## TRY THESE WITH IT

- Tri-Phasic White® Radiance Mask
- ageLOC® Tru Face® Essence Ultra
- Tru Face® Line Corrector

## LEARN MORE ABOUT IT

Which skin types should use Tri-Phasic White Day Milk Lotion?

Tri-Phasic White Day Milk Lotion is formulated for all skin types. If you feel you need additional moisturization after applying Tri-Phasic White Day Milk Lotion, use an additional moisturizer such as Moisture Restore Day Protective Lotion SPF 15 Normal to Dry Skin.

Does Tri-Phasic White Day Milk Lotion provide UVA protection?

Yes. Tri-Phasic White Day Milk Lotion does provide broad spectrum protection. It has a PA+++ rating, which is the highest on the PA scale.
