

NU SKIN® TRI-PHASIC WHITE® TONER

Nu Skin Tri-Phasic White is a comprehensive skin brightening system containing five products that target all three critical phases of the discoloration process.

PHASE 1: Protecting from initial factors that cause discoloration.

PHASE 2: Targeting a key component in the discoloration process.

PHASE 3: Reducing the appearance of discoloration.

Nu Skin Tri-Phasic White will help you achieve even-toned, glowing skin for a brighter, more radiant you.

MEET TRI-PHASIC WHITE TONER

Calm your skin. To enhance the skin brightening process, Tri-Phasic White® Toner features Fairtrex and carnosine. Fairtrex helps diminish hyperpigmentation on the surface of the skin, and carnosine is a powerful antioxidant. A non acid cell turnover complex, Tri-Phasic White Toner can be effective in targeting visible discoloration, leaving skin with a luminous and even tone.

WHY YOU'LL LOVE IT

- Soothes skin to reduce potential discoloration resulting from irritation.
- Visibly reduces discoloration on the surface of the skin by gently exfoliating skin cells to remove the appearance of accumulated dark spots and discoloration.

WHAT POWERS IT

- **Fairtrex**—a nonacid exfoliation complex that helps diminish the appearance of hyperpigmentation on the surface of the skin by actively removing accumulated pigment through exfoliation.
- **Carnosine**—a powerful antioxidant that calms the skin to target skin discoloration.
