Transformation Number = 18

When I heard about TR90, I was excited to achieve the dream body I've always wanted. TR90 was extremely simple. The supplements really help control my hunger. I was full after eating a portion of what I used to. I used to lift a lot but never achieved the results that I have using TR90. My Transformation Number is 18, because I'm now at the weight I was at that age.
