MAINTENANCE AND TROUBLESHOOTING

MAINTAINING YOUR BLUETOOTH CONNECTION TIPS

1. DO NOT SHUT OFF YOUR S3 DEVICE WHILE THE S3 SCANNER APP IS STILL RUNNING.

2. DON'T PRESS THE BLUETOOTH BUTTON ON THE BACK OF THE DEVICE ONCE YOU HAVE CONNECTED. THIS WILL RESET THE BLUETOOTH CONNECTION AND CAN SOMETIMES CAUSE SIGNAL INTERRUPTIONS.

IF YOU CAN'T ESTABLISH A BLUETOOTH CONNECTION

SOMETIMES THE iPAD MINI AND THE S3 SCANNER MAY HAVE DIFFICULTY CONNECTING, EVEN AFTER A PROPER SETUP. BLUETOOTH CONNECTIONS CAN BE INTERRUPTED FOR A VARIETY OF REASONS. IF YOUR iPAD AND S3 SCANNER ARE NOT COMMUNICATING, THEN FIRST TRY THE BLUETOOTH REFRESH OPTION BELOW. IF THAT DOES NOT SOLVE THE ISSUE, THEN TY THE POWER REFRESH OPTION.

A. BLUETOOTH REFRESH FIX

1. PRESS THE BLUETOOTH BUTTON ON THE BACK OF THE S3 SCANNER UNTIL IT IS BLINKING.

2. EXIT THE S3 SCANNER APP AS NORMAL.

3. RELOAD THE S3 SCANNER APP. CHECK THE STATUS TAB TO SEE IF YOUR S3 DEVICE HAS SUCCESSFULLY RECONN-ECTED TO THE iPAD.

4. IF THE TWO DEVICES DO NOT CONNECT, THEN EXIT THE S3 SCANNER APP AND TAP THE "SETTINGS" ICON.

5. IN THE SETTINGS APP, SHUT THE BLUETOOTH SWITCH TO "OFF". WAIT FOR 2-3 SECONDS. THEN SET THE BLUE-TOOTH SWITCH BACK TO "ON."

6. LOAD THE S3 SCANNER APP AGAIN, AND SEE IF THE CONNECTION IS SUCCESSFULLY RESTABLISHED.

7. IF THIS PROCESS DOES NOT WORK, FOLLOW THE POWER REFRESH STEPS BELOW.

B. POWER REFRESH FIX

1. GO INTO THE iPAD "PROGRAM MANAGER" (DOUBLE TAP HOME KEY) AND SHUT OFF THE S3 APP.

2. DO A FULL POWER-DOWN OF THE iPAD (HOLD POWER BUTTON FOR 3 SECONDS, THEN SWIPE THE RED ARROW).

3. POWER THE iPAD BACK ON.

4. POWER ON THE S3.

5. HOLD DOWN THE S3 BLUETOOTH BUTTON UNTIL BLINKING.

6. OPEN THE S3 SCANNER APP.

7. CONNECT TO THE S3 IN THE STATUS TAB.
