NETGEAR[®] USB WIRELESS ADAPTER INSTALLATION INSTRUCTIONS

With Version 6.0 a USB Wireless Adapter is an optional method to access the Internet. The NETGEAR[®] WG111v2/v3 is fully supported by Version 6.0, and can be purchased directly from Nu Skin (part number: 01006997).

Other USB Wireless Adapters can be installed and used with Version 6.0: however, they are not supported by Nu Skin.

3 The Network Connections

Click on "Wireless Network

window will be displayed.

Connection."

4. From the list of available wireless connections select the appropriate wireless network.

1. Insert your NETGEAR[®] WG111v2/v3 USB Wireless Adapter into an USB port.

2. From the MENU button select Network Manager.

A Each time you insert your wireless adapter to a different USB port, you will need to reconnect to a wireless network.

↑ Wireless networks are available in many locations, but not all of them are accessible without a password. If a public network is not available you will not be able to access the Internet.

▲ Network Keys are necessary to access wireless networks. If you do not know the network key for a network, you will not be able to access the Internet.

5. Enter the appropriate Network Key. 6. Upon confirmation of the

correct Network Key you should be connected via a wireless connection.

> You can close this window. and you are now ready to access the Internet features.
